

# DEMONSTRATION IN OULU AGAINST NUCLEAR POWER AND URANIUM MINES IN OULU

**SATURDAY 24.1.2009**

**MEETING POINT**

at the market square at 12.30

**MARCH**

towards Rotuaari klo 13.00

**SPEECHES AND PERFORMANCES** in Rotuaari

**RALLY**

at Oulun Lyseo at 15.00-18.00

The nuclear-power and uranium-mining industries from Europe and elsewhere in the world have thrust their way into wild and liberal Northern Finland to reap the profit from the production of nuclear energy. The Fennovoima company is applying for permission to build the biggest nuclear reactor in the world at Simo or Pyhäjoki.

## **THE SAFETY OF ALL IS AT STAKE AND THE RIGHT TO LIFE WITHOUT NUCLEAR POWER IS THREATENED.**

Climate change and depleting natural resources demand wisdom and sustainable solutions. It is time to move over to renewable and appropriate energy, sustainable energy production and eco-efficient use of energy. In the near future, a crucial decision will be made. It is **time to say a resounding NO** to the greed of the power companies and to the nonchalant attitude of the decision makers.

## **TOWARDS MODERN RENEWABLE ENERGY PRODUCTION AND INCREASED EFFICIENCY.**

***Come along to the demo. Join us in a campaign to put a stop to plans for nuclear-energy production and uranium mining in Northern Finland.***
